Last Notice.

THE Books and Accounts of A. B. KURTZ
have been placed in my hands for imme-
diate collection; and notice is hereby given to
all persons indebted, to make payment on or
before Thursday the 15th of February next—
after which date all unsettled accounts will be
put in suit without respect to persons.

Jan. 22. R. G. MC CREAMY.

Take Notice.

THE undersigned wishes all who are in-
debted to him by note or book account to
call and pay him, on or before the first day of
February next. Those who disregard this
notice will find their account in the hands of
an officer for collection.

Jan. 1. A. F. ARNOLD.

Now Ready.

KELLER KURTZ'S Holiday Stock of ele-
gant Illustrated and Standard BOOKS,
adapted for Christmas and New Year Pre-
sents. The Drawing-room Table, &c., are now
ready for examination. Also CHILDREN'S
BOOKS, in endless variety.

MUSLIN CRAVATS.—Samson
has just received the largest assortment
of beautiful CRAVATS, of the latest style—
which will be sold cheaper than any other
establishment dare to sell them.

Feb. 5.

Choice Poetry.

THE WELCOME DAY.

And I said, Oh! that I had wings like a dove for then
would I fly away, and be at rest—

The postman softly swept the strings—
And sign'd his spirit's anxious prayer—
To have the wild dove's quivering wings—
And breathe a sigh, pure sin—
When falsehood dream'd of glory & lied—
And all our hopes have passed away—
And friendship's ties are with the dead—
Who will not tell the welcome day?

When love has Child affection's glow—
And dep'rt the noble fire of youth,
Each pulse is beating sad and slow—
And doubts overcome every truth—
Who would not from the human soul—
The postman's prayer breathes over again—
And leaves the clouds that round us roll—
And the zest and care of men?

When by a friend's ent'rance we stand—
And think the soul that would the else—
Has sought the pilgrim's promised land—
The morning of several days;
Who would not wish to break the tie—
That binds the unwilling soul to earth—
And move no longer to the sky—
E'er stade in another birth?

HASTY WORDS.

Full oft a word that lightly leaves the tongue—
Another's heart unmercifully has wrong'd me—
And were the world but patient to the eye,
We'd mourn the pain that solely might do.

Was it a taunt—perhaps a thoughtless jest?
An idle ripple of the vacant breast?

But such may yield a venomous death—
What need, to speak them, but a little health?

The bushy thus sources injurious prey—
And words can men, as do the ostrich's eyes—
Strong! that the bushy swallows Nature least.
In man alone to power of ruin tends

The Bushy thus sources injurious prey—
And words can men, as do the ostrich's eyes—
Strong! that the bushy swallows Nature least.
In man alone to power of ruin tends

Wealth with Health, &c., &c., the thousand cords—
That shew the touch of harsh words—
Could far out-dwell all the living day—
Nor any tenon cause them to give way.

On strike them costly; every human breast—
Is by a secret load of brief oppress—
For 'tis to add a soul of timeless woe—
Where thoughts ever are so prone to flow.

Elementary Education.

So much has been said and written on
the subject of the increased education de-
manded by the present age, that an impa-
tient has been given to the cause of general
education, which is certainly encouraging
and praiseworthy, but while more atten-
tion is given to the higher branches of study,
orthography is too frequently overlooked.
How seldom do we find a good reader—one
who articulates distinctly, pronounces cor-
rectly, and gives the sense perfectly. How
few can converse in their mother tongue
without violating the first principles of
grammar, or write a page correctly.

All the high sounding elegies and lan-
guages but add disgrace to one who cannot
write a letter to a friend without more or
less mis-spelling and bad punctuation; for
those who spell poorly, when com-
mon schools and spelling books are within
the reach of all, and yet the accomplishment
is so rare, that we count it a great merit in
any one to spell and punctuate correctly.

One should consider it a higher honor to
be accounted a good speller and grammarian,
than a good linguist, mathematician or mu-
sician. Many whose writings are intrinsi-
cally valuable and outwardly correct, other-
wise, will yet blunder surprisingly here.

These studies should be especially en-
couraged among school children, and none
should consider their common school edu-
cation complete till these studies are mas-
tered. Country spelling schools, when
rightly conducted, are very useful in fixing
a habit of correct spelling. The dictionary,
too, is invaluable as an aid to good spelling—
we should consider it worth even more as
a speller than as a dic-tor, and every family
that owns more than one book, should own
Webster's Dictionary as the second.

And none who ever uses a pen
should consider themselves too old to learn.

Teach the dictionary within reach, when
writing, and examine every word, large and
small, of whose spelling you have the smal-
lest doubt, and the correct spelling will
soon become fixed in your mind.

We especially entreat the girls, do not
infer so great a blushing in your education
as an ignorance of the elementary depart-
ments; whether you know much or nothing
else, see it that you acquire the indispensable.

It is a disgrace to spell poorly, when com-
mon schools and spelling books are within
the reach of all, and yet the accomplishment
is so rare, that we count it a great merit in
any one to spell and punctuate correctly.

And this is true not only of the unedu-
cated, but of the "educated" as well.

How few can converse in their mother tongue—
Is by a secret load of brief oppress—
For 'tis to add a soul of timeless woe—
Where thoughts ever are so prone to flow.

And you paid six dollars for it, did
you?

"How did you find it out?" asked Mrs.
Selden.

Surprised and astonished.

Simply because there is pleasureread on
your back, in large letters, "A GREAT BAR-
GAIN—ONLY SIX DOLLARS."

It was true! Mrs. Selden had been pro-
mading Washington street with the lack-
less placard so unmercifully displayed, that
she had not even time to stop and look at it.

"I'll thank you to tell me what you are
laughing at?" said Mrs. Selden haughtily.

"You've been buying a new shawl," said
her friend, quietly.

"Oh that's not what I mean. Did you
see a manuscript sermon—a paper written
on it? I left mine on my table!"

"Shure an' its sum bits o' paper marked
all over and over, that ye'd be asther
finden?"

"Yes, that's it, exactly. Did you see
them?"

"Indude, sur, an' it was myself that
tuck 'em to light the fire wid; and shure I
tho't it was kind in ye to have 'em for me,
all so nice and handy."

Reader, if you want to know "what for a
sermon" they had in — church last
Sunday, you must ask the congregation.

The above was rather too good for us to
keep, so our good friend must excuse us
for telling it. We sympathize with him in
the loss of his sermon, but cannot conceal
the case.

Mothers Made Thankful.

The local editor of the Buffalo Republic
has made himself one of the immortals, by
the publication of a discovery which he has
made, of great importance to mothers. It
is an infallible means of keeping babies
from two to ten months old, perfectly quiet
for hours.

From two to ten months old, perfectly quiet
for hours.

As soon as the squall awakes, set the child
up, prop it up, prop it up by pillows if it
cannot sit alone, and smear its fingers with
thick molasses. Then pat half a dozen
feathers into its hands, and the young one
will sit and pick the feathers from one hand
to the other, until it drops asleep. As soon
as it wakes, more molasses and more feathers,
and in place of nerve-awakening yell's,
there will be silence and enjoyment un-
speakeable.

A Competent Councilman.

A recent meeting of the Board of Coun-
cilmen had been set apart for the Third

Reading of the bills. A motion being made

that the Board do now proceed to the
third reading of bill, one of the new mem-
bers—an Irishman arose hastily and protest-
ed against any such proceedings. He said

that *last night reading was all a sham!*

As for himself, he could understand the
meaning of a bill after it had been read

twice; and he thought it was a useless
waste of time to read it a third time!

This exhibition of parliamentary lore created
most uproarious laughter and applause, and
quite dismali'd the new "guardian of the
city's laws"—N. Y. Jour. of Com.

First go the luxuries—the superfluous
furniture—the silver spoon—the spurs
clothing—the jeweler, even the bridal ring;

and so through the whole inventory of arti-
cles that can be dispensed with, while life
is retained.

To accommodate this inborn

and inalienable American pride, the pawn-shops only

will their sad story, and add:

"First go the luxuries—the superfluous
furniture—the silver spoon—the spurs
clothing—the jeweler, even the bridal ring;

and so through the whole inventory of arti

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

THE ADAMS SENTINEL

GETTYSBURG

Monday, February 13, 1855.

In part of our edition last week, the title of Mr. Wm. was incorrectly printed to the name of Mr. Nancy, the lately deceased Ex-Mayor of Washington.

Col. FRANKLIN GARDNER, of York Springs, has been appointed by the Governor, Secretary of Weights and Measures for Adams county.

A Foundling. On Saturday night last, about 9 o'clock, a hearty thriving male infant, about a month old, was left at the door of Mr. Harvey D. Sweeney, of this borough, and was taken charge of shortly after by the inmates of the house, who discovered it on the porch. It was carefully wrapped up in a large blanket, and a shawl, to which was pinned a note asking that it should be taken and raised by him as his own, and he called "Escar." It was neatly dressed, and had a change of clothing wrapped up with it. We learn that, yesterday, it was adopted by Mr. HENRY HUGHES, of this place, and has been named HARVEY EDGAR HUGHES. There is no clue to the parents who have thus exposed their offspring to the charities of the world—but the presumption is, that it was brought from a distance, as a child was noticed by a neighbor to stop at the door a few minutes previously.

A very interesting meeting of the Adams County Teachers' Convention, was held in this place on the 1st and 2d inst. Addresses were delivered by Rev. R. Johnson, Professor Stever, W. L. Campbell, Esq., and Mr. Titus. The proceedings have not been furnished us for publication.

In reply to the inquiries of our neighbor of the "Compiler," we mention that we are not "booked up" as to the strength of "Old Line Whigerry" in the legislature—no demonstration having been made to indicate its weakness, as has been done by the "Democracy."

Valentines. The beautiful display of these love tokens by our neighbor, KELLER KUNZ, reminds us that Wednesday is St. Valentine's day, and we suppose our young folks that have not already supplied themselves with the tender little "epistles of love-making," will not let the day pass without doing so.

Gov. Pollock has been adding to the number of his Aids-de-camp in this country, by the appointment of WM. B. MCLELLAN, Esq., and FRANKLIN B. PICKING, who received, a few days ago, similar commissions to that of our Junior brother of the "Star." Adams county appears to be profane in the material that Aids are "made of."

Cold Weather. Tuesday and Wednesday last were intensely cold. On the morning of Tuesday, the mercury in this place was 5° below zero—on Wednesday 1° above. But throughout the whole of Wednesday, the mercury did not rise above 3° at any time, and at night was at zero—being the coldest day on record at this place.

On Saturday morning, but 4° above. **A Contrast.** At Charleston, (S. C.) on Thursday last, there was a thunderstorm, and the mercury was at 65°.

Tuesday and Wednesday last, 6th and 7th, will long be remembered for their extreme coldness, not having been exceeded in severity for many years. From every quarter we have account of the intense cold. At New York, on the night of Tuesday and morning of Wednesday, the thermometer was 10 degrees below zero; at Ogdensburg, N. Y. 33, Buffalo 20, and in the eastern States it varied from 10 to 40 degrees below zero. At Quebec it was down to 32° below. At Philadelphia, it was several degrees below, and during the whole of Wednesday, it only rose to 8 above zero! Several cases of death from the cold occurred. The ice closed in the Delaware. In every quarter that we hear from, the cold was intense, and the mercury fell below zero. At Cambridge University, Boston, the mercury stood 10° below zero, being the coldest for 16 years.

The Rev. Dr. REYNOLDS, formerly of Gettysburg, and recently President of Capital University, in Columbus, Ohio, has purchased the High School in Allentown, Pa., from its proprietor, who resides on account of feeble health. It is in a prosperous condition, having had 200 pupils during the past year. The institution owns a four story edifice, 130 feet by 40, surrounded by choice shade trees, and also three acres of ground. Dr. R. will take charge of it in the spring.

The first case in Cincinnati, under the new Liquor Law of Ohio, came on Tuesday week. Two landlords plead guilty, and were each fined \$50 and costs, and sent to the dungeon of the county for 20 days, to be fed on bread and water.

The election in Lancaster on Tuesday last, for Mayor, &c. was very large, and warmly contested. The Know-Nothing candidate (Mr. Allibone) was elected Mayor by a majority of 200.

The Schoolmaster Abroad.

The following letter addressed to a gentleman in this country, has been handed to us for publication, as a choice specimen of orthography. We omit names and dates; but we understand the writer is a Justice of the Peace in a neighboring county, and an aspirant to higher honors.

—The 26 Ad 1855.

"Mr.—Dear Sir With respect to your favor on my pocket if you wish to enjoy the pleasure of filling an office of trust or honor of which in my estimation I think you fully capable of filling the office of legal counsel or attorney in a convenient way and in order to establish that you must come out and see what you are a true American and stand up for your one country and for your countrymen all ways. But in mind that our Four Father Secured a free and honest government for us bought Deadey an so. Becomes us as Americans to secure the same for our children as a future generation as it is well known that in the Declaration of independence or the framing of the constitution no power was allowed to be at the head of government. Please Dennis look at yourself as american and you will agree with me. None but americans to officiate collect funds rising generation. Born in this country. Come in play. Not more at present. But perhaps the paper will and you will find the plot form of the no Nothing so called and you will be pleased with it yours

Bounty Land.

A bill passed the Senate of the U. States on Monday last, giving to all who served fourteen days in any war 160 acres of land, deducting the number of acres already received by them under former acts, and to the widows and minor children of the deceased, it gives a like amount.

The Washington correspondent of the "Sun" seems to think that the bill has no chance in the House of Representatives this session, but that the land question, in all its shapes, will be referred to the next Congress.

The Tariff.

On Wednesday, a motion was made in the House of Representatives of the U. S. to take up the bill reducing the Tariff. This was agreed to, by a vote of 104 to 97; but when in committee, a motion was made to take up another bill, which prevailed, 95 to 89, which carries of "good," and laughter from those opposed to the reduction of the Tariff. The Intelligencer seems to think from the vote, that the subject is not to undergo any serious consideration at the present session.

The French Spoliation bill passed the Senate on Tuesday, 23 to 17. Having previously passed the House, it now only needs the signature of the President to become a law. It is said the President will veto it. This bill proposes to create a board of three commissioners, with a secretary, clerk, and messenger, to commence their session in October next. This board is to examine and decide upon all claims to indemnity upon the French Government (not heretofore provided for) arising out of illegal captures, evasions, confiscations, &c. committed by the French prior to the 31st July, 1801. For this purpose five millions of dollars are to be appropriated, to be paid pro rata to the claimants.

Mr. Breenridge, lately appointed Minister to Spain, has declined, and Senator Dodge, of Iowa, has been appointed in his room, and confirmed by the Senate.

Appointments by the Governor.

THOMAS J. POWELL, of Beaver county, Adjutant General of the State.

COL. A. K. McCLURE, of the "Repository," Chambersburg, to be Superintendent of Public Printing.

C. L. MAHIE, Inspector of Weights and Measures for Allegheny county.

Mr. CULP, Flour Inspector, at Pittsburgh.

Mr. Powers is a K. N. Democrat; Col. McClure, Whig; the others—K. N. Whigs, we believe.

U. S. Senator.

The election of a U. S. Senator by the Legislature, is to take place to-morrow—the subject has been one of absorbing interest for some time among the politicians of the State.

Mr. Professor Tiffany, of Carlisle, was invited to deliver a lecture before the "Young Men's Christian Association," of York, on the evening of the 24 inst., and it appears that, instead of confining himself to the objects of the Association, he delivered a violent Know-Nothing speech. This has excited considerable feeling in York, and the Gazette and Pennsylvanian there have been hailing the Professor "without gloves."

HON. WM. H. SEWARD was, on Friday last, re-elected a Senator of the U. States, by the Legislature of New York, for six years from the 4th of March next, when his present term will expire. His majority was 22 on joint ballot. The "Know-Nothing" failed in their attempt to defeat him.

The re-election of Senator Seward caused great rejoicing among his friends at New York. The Tribune office was illuminated, and the Whig General Committee met and rejoiced at it. Cannon was fired at Albany. Flags were raised and 125 guns fired at Rochester, and 7 at Syracuse.

The Hon. Charles Durkee (from anti-Nebraska members) has been chosen U. S. Senator from Wisconsin for six years from the 4th of March next.

Int. Extraterritorial. It is estimated that the income alone, which is burnt in the Chinese Republic in the course of their trade, annually exceeds £100,000 sterling, or a little more than one fifth of the total sum, wages and goods.

Int. Extraterritorial.

It is estimated that the income alone, which is burnt in the Chinese Republic in the course of their trade, annually exceeds £100,000 sterling, or a little more than one fifth of the total sum, wages and goods.

U. S. Senator—Nomination of Candidates.

On Thursday last, nominations were made in the Legislature of candidates for the U. S. Senatorship. In the Senate there were twenty-one, and in the House fifty-one nominated. The latter are as follows:

Daniel M. Suyser, Robert T. Conrad, Jacob Fry, Jr., Geo. W. Woodward, James Cooper, John S. Little, Joseph Buffington, Henry M. Fuller, Smith Fuller, Judah Stevens, John C. Knobell, Wm. W. Marwood, William Darlington, James Todd, J. MacLay Boyer, Jones B. McClellan, James Thomson, Lewis Clavett, John J. Pearson, David Jayne, John M. Broome, J. Kennedy Moorhead, Thomas C. Steel, Henry D. Foster, Joseph Ritner, A. B. Dunning, George Stewart, Charles Fraley, Alexander Cumming, David Treggar, Milo P. Blumick,

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

Late from Europe.

The steamer Atlantic arrived at New York on Friday, with Liverpool dates to the 27th ult.

Lord John Russell has resigned, and a general dissolution of the English Ministry is threatened. The public feeling in England is tending toward peace.

No change had occurred in affairs at Sebastopol. No general battle had taken place. The Russians had made two sorties, but were repulsed. Large reinforcements were reaching the Allies. Sickness continued to increase in the camps of the Allies. Menschikoff is reported to have said to his troops, that "they might rest, for Generals January, February and March would fight their battles better than they could."

The steamer North Star arrived at New York on Thursday with California dates to the 16th ult. She brings 200 passengers, and \$1,239,000 in specie. The miners in California were rejoicing over the recent rains, and the work of washing was going briskly on. In some parts of the State the weather had been excessively cold, and snow had fallen to the depth of two feet. The Legislature had created a great excitement in the religious portion of the community, by refusing to pay for the services of a chaplain, and inviting all the Sacramento clergymen, a Mormon minister included, to officiate alternately. The clergy were declining the invitation.

The Panama Railroad was completed, and the first train passed over on the 28th of January. The passengers that went out by the North Star and those that came home by her passed over the road. The time occupied in the transit was four hours.

Late intelligence from Mexico confirms the report of the successes of Alvarez against Santa Anna. It is said that Alvarez obtained a complete victory in Guerrero, and that Santa Anna's army, 1,000 strong, had surrendered. At Acapulco it was reported that 2,000 of Santa Anna's army had deserted and gone over to Alvarez.

What Russia has been Doing.

Russia seems to be wide awake to her great interests, even with a disastrous war on her hands. According to recent accounts, she has taken advantage of the Chinese rebellion to obtain from the imperial government a treaty, yielding to her the navigation of the Amoor, and she has already converted that permission into absolute possession of the whole course of the river, and an enormous tract of country, about 1000 miles in length, and in some parts as much as 500 in breadth; which gives her access to the Pacific Ocean in a temperate climate. Canton and stores are already carried down the Amoor by steam-boats, and sent from its mouth to the Russian possessions in America; and it may at no distant day, be one of the great channels of European and Asiatic commerce, for the water communication between the Baltic and the Caspian has long been complete, and according to Cottrell, only 400 versts, or 200 miles, of additional canal will be required to connect the Pacific with the Caspian. The progress of a far-reaching and enterprising nation like this is not to be easily stopped.

Submarine Telegraph across the Black Sea.—The London Times speaks of the departure of a steamer with the wire for a submarine cable intended to be laid between Varna and Balaklava, a distance of 400 miles. Morse's system of telegraphing is to be used. By the end of February a direct telegraphic communication will be opened between the head quarters of the Allies in the Crimea, and the two great western capitals, London and Paris; for the French and English Governments have made such arrangements that the gentlemen who are proceeding out to the Black Sea confidentially expect that by the time their vessel reaches the Euxine, the overland telegraph from Varna to Bucharest will be finished, thus completing the electric communication of the Crimean with England.

Liberia is making due progress in at least one of the arts of civilization. The Monrovia Herald informs us that at no period in the history of the colony has there been manifested so strong a tendency among the people to discuss politics and to form party combinations as at the present time. It is intimated that President Roberts will not be a candidate for a fifth re-election.

The corner-stone of a new Episcopal Church, to be called "Trinity," was laid at Monrovia on the 30th of October. The church is to be of stone, 101 by 59 feet, and larger than any other church in the Republic.

The Liberia Herald urges legislative action to suppress the traffic in liquor in that Republic, and to check the introduction into that community of this prolific source of poverty, misery, and crime.

Another Secret Society.—The Crusader tells about a secret institution of professional floggers in New York, imported from Sardinia, but classified among voluntary emigrants. He says:

"At the present time this foreign organization of professional floggers numbers in the city of New York not less than 300 members of both sexes. They have secret and mysterious signs—a language intelligible but among themselves, and have certificates according to their degrees, merits, and intelligence of the members. They inhabit generally the most filthy quarters of New York, and organized much like Communists, Socialists, or Socialists; they beg individually and divide mutually. As soon as they have collected a good sum, they return to their native home, and buy properties with the money obtained in this country under false pretences."

Pretty Col.—On Tuesday last, at Gotham, on the White Mountain, the mercury in the thermometer was within one degree of the point at which it becomes congealed. This is considerably colder than we have had it, but not near so cold as the polar regions, where, according to Dr. Kene, sweet oil had to be sawed and brandy split with a hatchet.

Singular Presentiment of Death.

A most singular presentiment of death occurred a few days ago in the family of Mr. George Fisher, in Reisterstown, Baltimore county. His little son Fillmore, aged about four years, awoke in the night and called to his mother to know if she was awake. He then asked if his father was awake, and afterwards told his mother he was going to die. He told his father the same thing, and when told he was dreaming, replied that he was awake, and knew he was going to die. The parents thought nothing more of it, and the child slept comfortably till morning. When he awoke in the morning he repeated his presentiment to his parents; and as soon as breakfast was over insisted on being allowed to go and see Mrs. Walters, a neighbor, that he was going to die. His mother told him that he had better go and see his grandmother if he was going to die. He made a visit to his grandmother, and also to Mrs. Walters, after which he returned to his home. During the afternoon of the same day his mother was called out of the house for a few minutes, and when she returned she found the little fellow awfully burned by his clothing having taken fire. As soon as the fire was extinguished he said to his mother, "I told you I was going to die." A physician was called in, who dressed his injuries, telling him he would soon be well. "No," Fillmore was going to die;" and during the night the little boy breathed his last. This was a most extraordinary presentiment, and during the whole day he spoke of dying, though he had enjoyed excellent health. The boy is said to have been a sprightly and interesting child, and was beloved by all who knew him.

Execution of Tuscany, Tarazona, &c.—Austria has withdrawn all her troops from Tuscany, (say 6,000) having other use for them, and the native Tuscan force has consequently been increased to 15,000. The Austrian garrison cost the people over \$500,000 annually, making near five millions since May, 1849. A letter in the Newark (N. J.) Advertiser, from a gentleman, states that the population of Tuscany is only a little over one million, while the government expenses are near eight millions of dollars annually. The cost of the Grand Ducal establishment is enormous. The salary of the President of the United States is \$25,000, while that of the Grand Duke of Little Tuscany is \$132,000, or \$36,000 a month! This enormous sum goes to support in luxury a numerous household, with five or six palaces, for winter and summer in various parts of the country. The assembly rooms of the Pitti Palace in Florence, the Ducal residence, have just been refurnished at a cost of over \$100,000. The chairs of these apartments cost \$300 each.

Singular Emotion.—The following, written in an elegant business hand, was inscribed on the back of a five-dollar bill received in New York from N. Carolina:

"Here is a \$5 bill which I intend to toss out of my window, in Norfolk, as soon as I have written this. I am no lover of money. I hate it most cordially, for it has been the ruin of all my family. I will beg from door to door externally rather than own another cent one hour. It made my grandfather a suicide, my father a murderer, my mother the victim of a sorrow that sank her early to the grave, my brother a gambler, and myself a convict in the State prison four years."

Earthquake in Virginia.—The Richmond Post states that a shock of an earthquake was sensibly felt on Friday week, a few minutes before three o'clock, in Clarksburg, Charlotte, Prince Edward, and Halifax. At Clarksburg there was a rumbling rattling sound, which resembled somewhat the noise made by a four horse coach in rapid motion, or a wagon with an empty body running rapidly down a rough hill. Crookery standing on the table was visibly shaken. At Weyersburg the houses were shaken, and one gentleman was waked up by the severe jar and noise. Alarmed by the cracking sound of his house, he jumped out of bed considerably frightened, and ran out to see if his house was not on fire at the top. In Prince Edward, we learn, the shock was still greater. In Halifax it was sufficient to wake persons from sound sleep. No person in Richmond was aware of an earthquake in that region at all.

Submarine Telegraph across the Black Sea.—The London Times speaks of the departure of a steamer with the wire for a submarine cable intended to be laid between Varna and Balaklava, a distance of 400 miles. Morse's system of telegraphing is to be used. By the end of February a direct telegraphic communication will be opened between the head quarters of the Allies in the Crimea, and the two great western capitals, London and Paris; for the French and English Governments have made such arrangements that the gentlemen who are proceeding out to the Black Sea confidentially expect that by the time their vessel reaches the Euxine, the overland telegraph from Varna to Bucharest will be finished, thus completing the electric communication of the Crimean with England.

Liberia is making due progress in at least one of the arts of civilization. The Monrovia Herald informs us that at no period in the history of the colony has there been manifested so strong a tendency among the people to discuss politics and to form party combinations as at the present time. It is intimated that President Roberts will not be a candidate for a fifth re-election.

The corner-stone of a new Episcopal Church, to be called "Trinity," was laid at Monrovia on the 30th of October. The church is to be of stone, 101 by 59 feet, and larger than any other church in the Republic.

The Liberia Herald urges legislative action to suppress the traffic in liquor in that Republic, and to check the introduction into that community of this prolific source of poverty, misery, and crime.

Another Secret Society.—The Crusader tells about a secret institution of professional floggers in New York, imported from Sardinia, but classified among voluntary emigrants. He says:

"At the present time this foreign organization of professional floggers numbers in the city of New York not less than 300 members of both sexes. They have secret and mysterious signs—a language intelligible but among themselves, and have certificates according to their degrees, merits, and intelligence of the members. They inhabit generally the most filthy quarters of New York, and organized much like Communists, Socialists, or Socialists; they beg individually and divide mutually. As soon as they have collected a good sum, they return to their native home, and buy properties with the money obtained in this country under false pretences."

Pretty Col.—On Tuesday last, at Gotham, on the White Mountain, the mercury in the thermometer was within one degree of the point at which it becomes congealed. This is considerably colder than we have had it, but not near so cold as the polar regions, where, according to Dr. Kene, sweet oil had to be sawed and brandy split with a hatchet.

The Maine Giantess.

Her name is Silva Hardy. She is a native of Wilton, in Franklin county, is seven feet six inches in height, is rather lean than fleshy, yet weighs three hundred and thirty pounds, is nearly thirty years of age, and is still growing. She has hereto maintained herself chiefly by service in the capacity of a nurse, having the reputation of being a most excellent one; but for a few months, her health has not been good enough for her to practice this vocation. Her mother is said to be below medium size and her father not above it. She was a twin, and at birth weighed but three and a half pounds; her mare did not live. She has always been an unusually small eater and accustomed to labor. Her figure is not erect. Her complexion is fair, her eyes blue, and the very modest and mild expression of her countenance is said to be a true index to her character. She has always shrank from the presence of strangers, and it is believed could not now be induced to appear in public but for the poverty that compels her to overcome her extreme sensitiveness. We are assured that she never, as nurse, takes an infant into her arms, but always holds it in her hand. Placing the head upon the end of her fingers, its feet extend towards the wrist, and with the thumb and little finger elevated she forms an ample and admirable cradle; the length of her hand being equal to the whole length of an infant. She is unable to pass ordinary doors without stooping a good deal.

Portland Argus.

Effects of a Change in the Weather.—Last Friday night, the massive iron-chains which run over the top of the railroad bridge in Galeton, were all broken in an instant, by reason, no doubt, of the sudden change of the atmosphere from warm to cold.

The Wednesday morning meeting held in this borough, EDWARD SON OF CO. H, Longwell, aged 22, died yesterday, and was buried at 10 o'clock.

EDWARD SON OF CO. H, Longwell, aged 22, died yesterday, and was buried at 10 o'clock.

On the 2d inst., in the 14th year of his age, JOHN DICKSON, aged 14, died.

On the 3d inst., in the 14th year of his age, ROBERT MCGOWAN, of Hamlinburg township, to Miss ELIZA O'BRIEN of Hamlinburg township.

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

THE ADAMS SENTINEL.

CITY'S BURG:

Monday, February 12, 1855.

In part of our edition last week the title of Rev. was incorrectly prefixed to the name of Mr. Maury, the lately deceased Ex-Mayor of Washington.

Col. FRANKLIN GARDNER, of York Springs, has been appointed by the Governor, Sealer of Weights and Measures for Adams county.

A Foundling.

On Saturday night last, about 9 o'clock, a hearty thriving male infant, about a month old, was left at the door of Mr. Harvey D. Sweeney, of this borough, and was taken charge of shortly after by the inmates of the house, who discovered it on the porch. It was carefully wrapped up in a large blanket, and a shawl, to which was pinned a note asking that it should be taken and raised by him as his own, and he called "EDGAR". It was neatly dressed, and had a change of clothing wrapped up with it. We learn that, yesterday, it was adopted by Mr. HENRY HUGHES, of this place, and has been named HARVEY EDGAR HUGHES. There is no clue to the parents who have thus exposed their offspring to the charities of the world—but the presumption is, that it was brought from a distance, as a sleigh was noticed by a neighbor to stop at the door a few minutes previously.

A very interesting meeting of the "Adams County Teachers' Convention," was held in this place on the 1st and 2d inst. Addresses were delivered by Rev. R. Johnson, Professor Stoever, W. L. Campbell, Esq., and Mr. Titus. The proceedings have not been furnished us for publication.

In reply to the inquiries of our neighbor of the "Compiler," we mention that we are not "booked up" as to the strength of "Old Line Whigerry" in the legislature—no demonstration having been made to indicate its *weakness*, as has been done by the "Democracy."

Valentines.

The beautiful display of these love tokens by our neighbor, KELLER KURTZ, reminds us that Wednesday is St. Valentine's day; and we suppose our young folks that have not already supplied themselves with the tender little "epistles of love-making," will not let the day pass without doing so.

Gov. Pollock has been added to the number of his Aids-de-camp in this county, by the appointment of Wm. B. MCLELLAN, Esq.; and FRANKLIN B. PICKING, who received, a few days ago, similar commissions to that of our Junior brother of the "Star." Adams county appears to be prolific in the material that Aids are "made of."

Cold Weather.

Tuesday and Wednesday last were intensely cold. On the morning of Tuesday, the mercury in this place was 5° below zero—on Wednesday 1° above. But throughout the whole of Wednesday, the mercury did not rise above 3° at any time, and at night was at zero—being the coldest day on record at this place.

On Saturday morning, but 4° above.

A Contrast.

At Charleston, (S.C.) on Thursday last, there was a thunderstorm, and the mercury was at 65°.

Tuesday and Wednesday last, 6th and 7th, will long be remembered for their extreme coldness, not having been exceeded in severity for many years. From every quarter we have accounts of the intense cold.

At New York, on the night of Tuesday and morning of Wednesday, the thermometer was 10 degrees below zero; at Ogdensburg, N.Y. 33, Buffalo 20, and in the eastern States it varied from 10 to 40 degrees below zero. At Quebec it was down to 32 below. At Philadelphia, it was several degrees below, and during the whole of Wednesday, it only rose to 8 above zero! Several cases of death from the cold occurred. The ice closed in the Delaware. In every quarter that we hear from, the cold was intense, and the mercury fell below zero. At Cambridge University, Boston, the mercury stood 101 below zero, being the coldest for 15 years.

The Rev. Dr. RINOLDS, formerly of Gettysburg, and recently President of Capital University, in Columbus, Ohio, purchased the High School in Allentown, Pa., from its proprietor, who retires on account of feeble health. It is in a prosperous condition, having had 200 pupils during the past year. The institution owns a four story edifice, 130 feet by 40, surrounded by choice shade trees, and also three acres of ground. Dr. R. will take charge of it in the spring.

The first case in Cincinnati, under the new Labor Law of Ohio, came off on Tuesday week. Two landlords plead guilty, and were each fined \$50 and costs, and sent to the dungeon of the county for 30 days, to be fed on bread and water.

The election in Lancaster on Tuesday last, for Vice, was very large, and warmly contested. The Know-Nothing candidate, Mr. ALBRIGHT, was elected May 10, by a majority of 2,000.

The election in Lancaster on Tuesday last, for Vice, was very large, and warmly contested. The Know-Nothing candidate, Mr. ALBRIGHT, was elected May 10, by a majority of 2,000.

The Schoolmaster Abroad.

The following letter addressed to a gentleman in this county, has been handed to us for publication, as a choice specimen of orthography. We omit names and dates; but we understand the writer is a Justice of the Peace in a neighboring county, and an aspirant to higher honors.

— the 26 Ad 1855

Mr.— Dear Sir With respect to your Bishoff on Poleticks if you Wish to enjoy the Pleasure of filling an office of trust or one of which in my estimation I think you fully capable of filling the office of legislator or eney office in a comon way and in order to establish that you Must cum out and see what you are a true American and stand up for your one country and for your countrys men all ways Bair in mind that our Fourfather Secured a free and holson government for us Bought Dourley an it becomes us as Americans to secure the same for our children as a rising generation is well known that in the Declaration of Independence or the framing of the constitution no furmer was allowed to be at the head of government Please Desir look at yourself as american and you will agree with me None But Americans to office recleat Farmers rising generation Born in this country Come in play Not more at present But Peruse the Paper well and you shall find the plat form of the no Nothing so called and you will be pleased with it

yentes

Bounty Land.

A bill passed the Senate of the U. States on Monday last, giving to all who served fourteen days in any war 160 acres of land, deducting the number of acres already received by them under former acts, and to the widows and minor children of the deceased it gives a like amount.

The Washington correspondent of the "Sun" seems to think that the bill has no chance in the House of Representatives this session, but that the land question, in all its shapes, will be referred to the next Congress.

The Tariff.

On Wednesday, a motion was made in the House of Representatives of the U. S. to take up the bill reducing the Tariff—This was agreed to, by a vote of 104 to 97;

but when in committee, a motion was made to take up another bill, which prevailed, 95 to 89, said cries of "good," and laughter from those opposed to the reduction of the Tariff. The Intelligencer seems to think

from the vote, that the subject is not to undergo any serious consideration at the present session.

The French Spoliation bill passed the Senate on Tuesday, 28 to 17. Having previously passed the House, it now only needs the signature of the President to become a law. It is said the President will veto it. This bill proposes to create a board of three commissioners, with a secretary, clerk, and messenger, to commence their session in October next. This board is to examine and decide upon all claims to indemnity upon the French Government (not heretofore provided for) arising out of illegal captures, condemnations, confiscations, &c. committed by the French prior to the 31st July, 1801. For this purpose five millions of dollars are to be appropriated, to be paid *pro rata* to the claimants.

Mr. Breckinridge, lately appointed Minister to Spain, has declined, and Senator DODGE, of Iowa, has been appointed in his room, and confirmed by the Senate.

Appointments by the Governor.

THOMAS J. POWER, of Beaver county, Adjutant General of the State.

Col. A. K. McCORMICK, of the "Repository," Chambersburg to be Superintendent of Public Printing.

C. L. MAGEE, Inspector of Weights and Measures for Allegheny county.

Mr. CUPA, Flour Inspector, at Pittsburgh.

Mr. Powers is a K. N. Democrat; Col. McClure, Whig; the others K. N. Whigs, we believe.

U. S. Senator.

The election of a U. S. Senator by the Legislature, is to take place to-morrow—the subject has been one of absorbing interest for some time among the politicians of the State.

Prof. Dr. Tiffey, of Carlisle, was invited to deliver a lecture before the "Young Men's Christian Association," of York, on the evening of the 21 inst., and it appears that, instead of confining himself to the subjects of the Association, he delivered a violent *Know-Nothing* speech. This has excited considerable feeling in York, and the Cambridge University, Boston, the mercury stood 101 below zero, being the coldest for 15 years.

Hon. WM. H. SWWARD was on Friday last, re-elected a Senator of the U. States, by the Legislature of New York, for six years from the 4th of March next, when his present term will expire. His majority was 220 on joint ballot. The "Know-Nothing" failed in their attempt to defeat him.

The re-election of Senator SWWARD met great rejoicings among his friends at New York. The Tribune office was illuminated, and the Whig General Committee met and rejoiced at it. Cannon was fired at Albany. Flags were raised and 125 guns fired at Rochester, and 187 at Syracuse.

The first case in Cincinnati, under the new Labor Law of Ohio, came off on Tuesday week. Two landlords pled guilty, and were each fined \$50 and costs, and sent to the dungeon of the county for 30 days, to be fed on bread and water.

The election in Lancaster on Tuesday last, for Vice, was very large, and warmly contested. The Know-Nothing candidate, Mr. ALBRIGHT, was elected May 10, by a majority of 2,000.

Idem Extraneous.—It is estimated that the income above, which is born in the Chinese Empire in the way of their portion of twenty-nin. What a grasping people we are! It appears as though we could never be at rest until the whole Continent is ours!

U. S. Senator—Nomination of Candidates.

On Thursday last, nominations were made in the Legislature of candidates for the U. S. Senatorship. In the Senate there were twenty-seven, and in the House sixty-one nominated. The latter are as follows:

Daniel M. SAYSER, Thomas E. Franklin, Robert F. CONRAD, David Wyman, Jacob FIV. Jr., James M. PORTER, Geo. W. Woodward, J. Pringle Jones, James COOPER, William F. JOHNSTON, John S. LITTLE, Benjamin H. BREWER, Joseph BULFINGTON, John W. HOWE, Henry M. FULLER, Gideon J. BALL, Samuel FULLER, Thaddeus STEVENS, Thomas H. BAIRD, John C. KUNKEL, Jacob DEWEY, John L. DAVIDSON, John M. KIRKPATRICK, William H. IRWIN, Andrew G. CURTIN, B. MARKLEY BOYER, John McCAULLEY, Jonah R. MCCLINTOCK, John WILLIAMSON, James THOMSON, Henry S. EVANS, Lewis C. LEVIN, Seth CLOVER, John J. PEPPER, Arnold PLUMER, David JAYNE, Robert B. MCCOMBES, John M. BRONMILL, Simon CAMERON, John KENNEDY MCNAUL, Jacob BROWN, Thomas S. STEDD, Wilson REILLY, Christian S. SNYDER, Joseph RITTER, A. B. DUNNING, Andrew STEWART, Ellis LEWIS, George CHAMBERS, Charles FREALEY, Alexander CUMMING, David TAGGERT, Milo M. BINNICK,

The "Know-Nothings," who have the ascendency in the Legislature, and, of course, will elect their nominee, had their caucus on Friday evening.

P. S. We learn from Harrisburg, that at the Know-Nothing Caucus on Friday night, Hon. SIMON CAMERON received the nomination; but some difficulty arose in the Caucus, and a large number withdrew, with the determination to resist the nomination in the Convention to-morrow. The probabilities are, however, that Mr. Cameron will have force enough to elect him. His principal opponent in caucus was Col. CURTIN, Secretary of the Commonwealth.

In the Senate, on Thursday last, Mr. CRAIB read in his place a bill relative to the Medical Department of Pennsylvania College. This is, no doubt, the same bill which was reported against in the House by the Committee on the Judiciary; and, we trust, will share the same fate in the Senate.

The Act for the repeal of the law requiring the Registration of Births, Marriages and Deaths, in Pennsylvania, has passed both branches of the Legislature.

The Pennsylvania Annual Conference of the United Brethren in Christ, met in Chambersburg on the 19th ult. S. L. MINNICK was appointed for the Littlestown Circuit, and W. H. HUMBERGER for the York Springs Circuit.

In the U. S. Senate, on Thursday last, a bill was up to give three years credit for the payment of duties on railroad iron. Our Senator, Mr. BRODHEAD, opposed the bill, urged the importance of the iron interests of Pennsylvania, and incidentally declared his hostility to any change in the present Tariff.

Lyman TURNBULL has been elected U. S. Senator from Illinois, in the room of Gen. SHIELDS.

The shock of an earthquake was distinctly felt on Thursday morning, in different parts of Maine and Nova Scotia. At Sackville, Maine, the windows were in some instances broken, and the buildings sensibly shaken.

Counterfeit \$5 notes on the Bank of Commerce, of Baltimore, are in circulation. The notes are payable to bearer, and bear date July 15, 1854. C. R. TAYLOR, President, George C. MILLER, Cashier.

On the Illinois Central Railroad, last week, a train was still frozen up near Decatur, and the wretched passengers suffered not only for lack of fuel, but for want of food, and, shocking to relate, were compelled by the bitter necessities of their condition to eat dogs to keep from starving.

This fact is stated in St. Louis papers of the 2d inst., received at Cincinnati. On the Chicago and Mississippi road, at last advice, a train of cars, filled with passengers, was buried in the snow, with the thermometer 35 degrees below zero. Three cars had been burnt up for fuel.

The heavy fall of snow with which the country about Chicago has been visited, gives rise to apprehensions of a flood there in the spring. In 1849 Chicago was visited with a flood and \$120,000 in property destroyed. Besides that many lives were sacrificed. The water swept away bridges, and flooded the city. Now the snow is very deep, and if it should melt suddenly, or a heavy rain should fall, a more fearful flood, it is feared, may ensue.

Resolutions to reduce the course of Senators DOUGLASS and SHIELDS, on the repeal of the Missouri Compromise, passed the House of Representatives of Illinois, on Monday, 37 to 27.

The Supreme Court of Wisconsin decided that the debt upon which they would take in money. They prefer a white squaw to a blanket. Sensible fellows!

A Hybrid Species.—A young lady of Bridgeton, N. J., a few days ago, while in the act of sneezing, came near dislocating her neck; she was insensible for some hours, and had it not been for the skill of the surgeon, who was immediately sent for, life would have been extorted.

Idem Extraneous.—It is estimated that the income above, which is born in the Chinese Empire in the way of their portion of twenty-nin. What a grasping people we are! It appears as though we could never be at rest until the whole Continent is ours!

Idem Extraneous.—It is estimated that the income above, which is born in the Chinese Empire in the way of their portion of twenty-nin. What a grasping people we are! It appears as though we could never be at rest until the whole Conti-

The Effects.

The charcoal blast Furnace of Himes, Corran & Himes, at Margareta, four miles from Wrightsville, went out of blast on the 2d, and we learn that it is the intention of the proprietors to suspend further operations until the stringency in the money market, and troubles in business circles, shall have subsided, or become somewhat relaxed. This throws out of employment, at this inclement season, about 120 hands. The foundry of Wolf & Co., in Wrightsville, has suspended operations; and the Anthracite Furnaces of Shoenberger & Musselman, near Marietta, are now only doing half-work. A large proportion of the Furnaces in different sections of the country have ceased operations under the gloomy prospects that now lower over the Iron interests in the manufacture of that great Pennsylvania staple.

More Specie Going!

The steamer Pacific sailed on Wednesday from New York for Liverpool, with 43 passengers, and upwards of HALF A MILLION OF DOLLARS IN SPECIE!

Give us, says the Connecticut Courant, a true and complete National Independence, instead of looking to foreign nations for the sume duty, yet every interference with the guaranteed rights of naturalized citizens is inconsistent with the plighted faith of the nation, and must diminish its growth and prosperity.

A suspension of the rules was necessary to introduce the master, and under the rules of the House two-thirds were required for that purpose. The vote on suspending the rules was, ayes 103, nays 78—not two-thirds. The vote was to a great extent a test vote, although several members in favor of the resolutions voted against suspending the rules on account of taking up the time which should be appropriated to public business. All who voted in the affirmative are, beyond a doubt, anti-Know-Nothings.

The Chambersburg Repository and Whig, in an article headed "Know-Nothing Defeat," holds the following language:

"It is utterly impossible in a country proverbial for freedom of thought and freedom of action and suffrage, as is ours, to give permanency to a political element that is to be controlled in secret, oath-bound caucuses, and that imposes upon its members, under penalty of formal excommunication, the support of its men and measures. Such a system of political machinery may work to a charm while there is no disaffected ambition to oppose, no personal preferences to sacrifice, no private griefs to be had; but let such an organization once become supreme over all parties, and the day of its power will be the date of its decay."

Importations of Foreign Goods.

The steamer Asia, on her last arrival, brought to Boston 1100 packages of goods, and the Canada brought 1400 packages, mostly of spring goods; and the import of foreign merchandise at New York, week before last, was \$2,455,760. This will require more of our species to pay for.

A special election is to take place in Philadelphia to-morrow, for a State Senator in the room of Mr. ENDKROD, deceased.—Henry C. PIATT is the nominee of the Whigs and Americans, and J. Murray RUSH of the Democrats. This election will determine the political complexion of the Senate.

At the last Chester county court, two tavern-keepers, Benjamin JACKSON and Thomas PASSMORE, were found guilty of selling liquor to minors, and sentenced the former to pay a fine of \$50, and an imprisonment of 30 days—and the latter to a fine of \$75, and an imprisonment of 30 days.

Trial of a Governor.—The Minnesota Democrat contains a report of the trial of Gov. GORMAN, of that territory, charged with assaulting and beating Frank COLLINS, an auctioneer. The jury, it appears, failed to agree on a verdict, and were discharged.

Martin's Vineyard, an appendage to Massachusetts, has banned the traffic in spirituous liquors, it is stated, for eighteen years past, and the result has been and is, that crime is almost unknown up in the island, and civil cases have been greatly diminished.

The bridge of the Central Railroad across the Juniata, above Lewistown, was destroyed by fire on the night of the 3d, supposed to be the work of an incendiary. The passengers of the trains since cross on the ice. The bridge cost \$10,000.

An instance of elegant pronunciatio, ill-illustrated by a humane sentiment, was given in the National House of Representatives a few days since. An Indian appropriation bill was under discussion, when the delegate from Oregon undertook to enlighten the House. "Mr. Speaker," said he, "ain't we got to文明to civilize the Indians of Oregon. They care nothing about treaties—they'll rob and murder whenever they can get a chance. The only way to treat the critters is to *scryp 'em*."

Quick Work.—A man named JOHN MITCHELL was engaged in a riot at Philadelphia, the other day, and arrested, bailed, and he was convicted, and sentenced to three years in the Eastern Penitentiary—all in three days! He cannot complain of delay in the administration of justice!

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

**IF YOU WANT
A WELL-MADE & CHEAP SUIT
OF
WINTER CLOTHING?**

NEW GOODS.
